

Pre-prepared reagent packs

Reagent packs for flow analysis are supplied pre-prepared, so users do not need to formulate the reagents themselves, reducing preparation work.

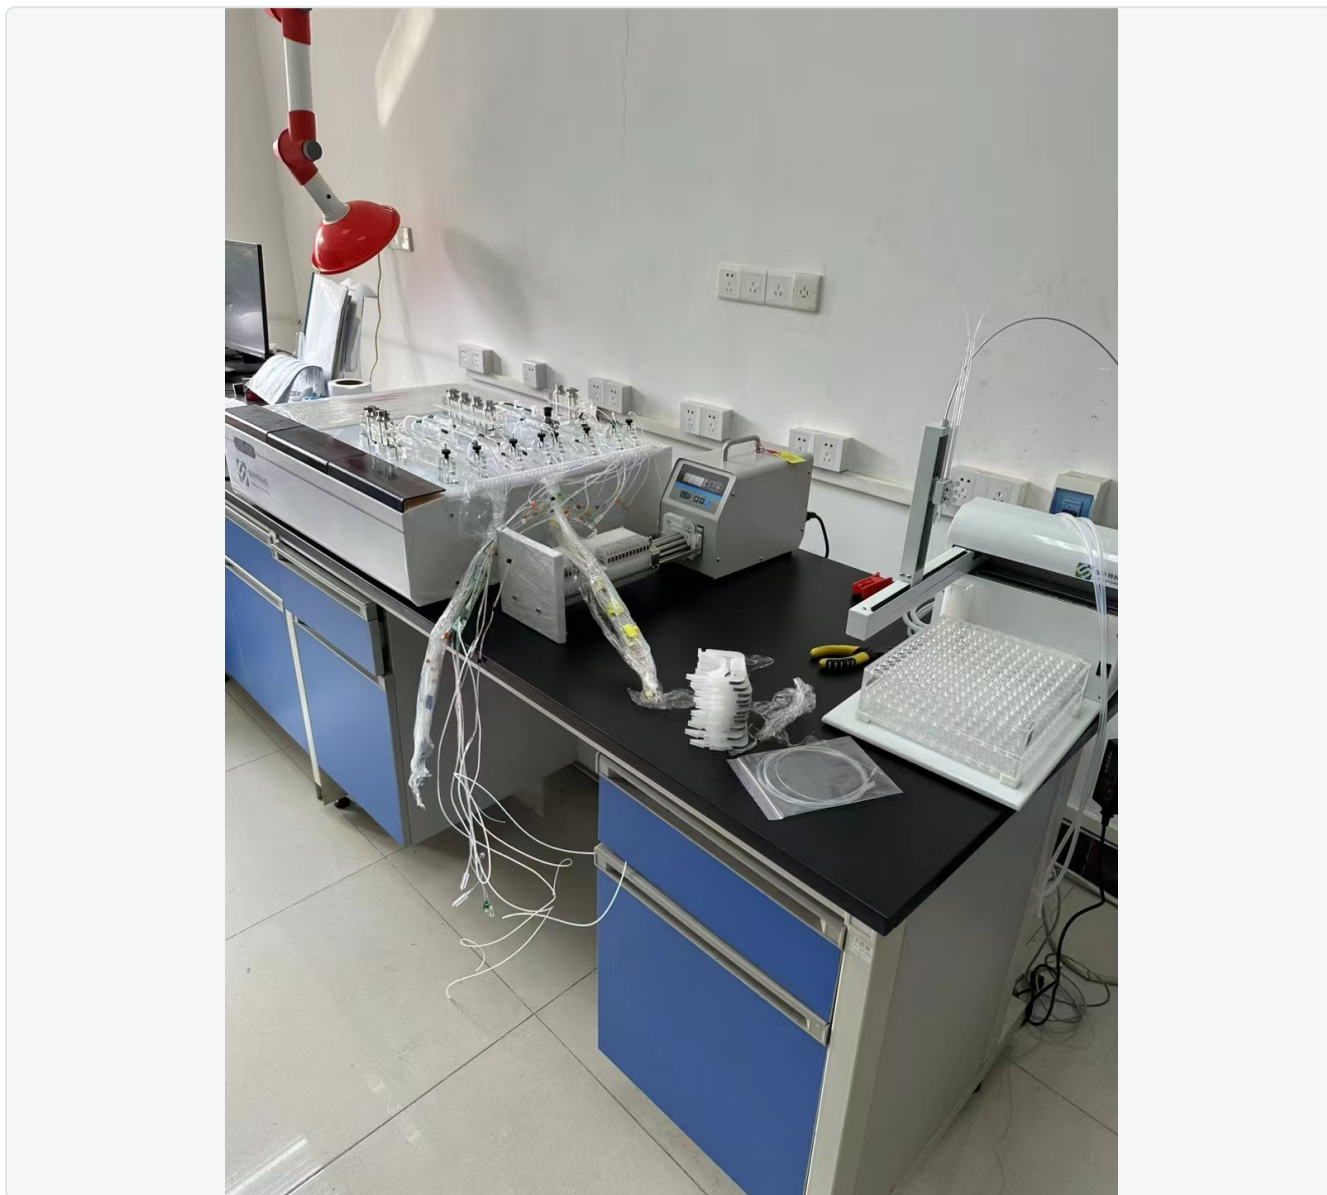

Refer to the supplied instructions for supported tests and use.

In the customer's laboratory

湛江农科院

Flow-analysis equipment at 湛江农科院 (Zhanjiang agricultural research).

CFA-3000

洛阳烟草研究院

CFA-3000 in use at 洛阳烟草研究院 (Luoyang tobacco research).

Cleaning bath
